Subject: DIRECTIVE TO NOT CONTRADICT TRUMP

To Neil Jacobs, Jr. and Julie Roberts:

I'm writing to say that it is OUTRAGEOUS for NOAA to tell NOAA scientists and staff that they are not to correct Trump when he is wrong about the weather!!!! In the case of hurricane predictions, to disseminate wrong information is dangerous - even if it comes from the president of the US - especially if it comes from that office! As tax payers we are entitled to ACCURATE information in order to respond to weather threats to our safety. When politics is prioritized over truth, it is a betrayal of the trust we put in NOAA to give us the information we need to make good decisions for the safety of ourselves, our families, and our communities.

Thank for your attention in this matter.

Sincerely,
Sharon A Fischer
